THE GAME OF WAR

Gunboats, Three Miles From the Harbor, Were Fired on From Fort McKinley.

THEY ATTEMPT TO LAND MARINES

Three Big Warships, It Is Claimed, Were Technically Destroyed on Entering Portland Harbor.

Wednesday 140 Rounds Were Fired By the Mortars of the Forts, 125 Shells By Converted Guns and 35 Shots By Six Inch Guns.

Portland, Me., Aug. 27.—Two gunboats off town landing at Falmouth foreshore, three miles from the harbor, were fired on from Fort McKinley while sending ashore landing parties. Three torpedo boat destroyers are reported to have passed Forts Williams and Leavitt, shortly after 10:15 and attempted to countermine the harbor. They were fired on by Fort Preble.

At Fort Preble, it is claimed that all three of the big warships which entered the harbor had been technically destroyed in the earlier action, when they were first discovered by use of searchlights.

It was stated Wednesday that 140 rounds were fired by the mortars of the harbor forts during the attack, 125 shells by the converted guns at Fort Preble and 35 shots by six-inch guns.

Gen. Chaffee and Brig. Gen. Barry were on the former's yacht, Kanawha, anchored off Fort McKinley, at 10 o'clock, and had retired for the night, or until another demonstration.

Gov. John F. Hill and staff visited the various encampments of the state militia Wednesday. The party was received with the customary honors.

Haverhill, Mass., Aug. 27.—Secretary of the Navy Moody was the chief guest of the boards of trades of the cities of the Merrimack valley in Groveland Wednesday, and spoke briefly on the navy and the present policy of the administration. Referring to the present war maneuvers, the secretary said:

"They are not for show or a spectacle. The fact that they are a spectacle is the chief objection to them; but they are to train officers and men, because there is no other way in which they can be so well trained.

"There is an especial interest in these maneuvers for the people of New England. South of the Potomac there are few deep harbors, but as you come north the number and depths of harbors increase until between Provincetown and Eastport there are more deep harbors than on any other part of our coast line.

"This is the most vulnerable part of our coast line and because of the fact that upon each harbor stands a populous city representing in population and property vast interests of the nation, it becomes a part of the nation's duty to defend that property, and so these maneuvers are being held off this coast in order that the officers and men in our fleet may be trained to the defense of these cities, and may have the opportunity by actual experience to learn the lesson which can be taught in no other way."

THE CRUISER CHATTANOOGA.

Steps to Be Taken to Release the Vessel From Custody.

Newark, N. J., Aug. 27.—Cortlandt Parker, jr., acting United States district attorney for this district, Wednesday received instructions from the solicitor of the treasury to take the necessary steps to have released from the custody of Sheriff Coriell, of Union county, the United States cruiser Chattanooga, at the Crescent ship yards at Elizabethport. The sheriff seized the cruiser under writs of attachment issued out of the supreme court of this state.

Joseph De Wyckoff Acquitted.

Havana, Aug. 27.—The criminal court acquitted Joseph De Wyckoff, an American lawyer charged with misappropriating \$10,000 sent to him by Michael J. Daly, of Brooklyn, for the purpose of securing an option on the aqueduct of Cienfuegos.

Gen. Miles in New Hampshire.

Thetford, N. H., Aug. 27.—Gen. Nelson A. Miles, who came here as the guest of the New Hampshire Veterans' association, arrived from California. He was received with a salute of 17 guns and escorted to the Soldiers' pavilion for dinner.

REMARKABLE SPECTACLE.

Vesuvius Opened Like a Huge Mouth Below the Central Cone.

Naples, Aug. 27.—The people of Naples and the environs witnessed a remarkable spectacle at noon Wednesday. One thousand feet below the central cone of Vesuvius, the volcano opened like a huge mouth, out of which belched forth a stream of lava, which ran down the side of the mountain and at first seemed to menace the observatory. This building, however, is protected in the direction of the stream by a mound of lava 200 feet high which was thrown out during the eruptions of 1895 and 1900. The eruption occurred without any warning whatever. There was no earthquake, detonation or rain of stones, nothing but a clear stream of lava and red hot stones, which were thrown to a height of 700 feet, producing an extremely beautiful effect seen from Naples.

The stream of lava, which was 15 feet broad at 11 o'clock Tuesday night, had covered a distance of 2,700 feet. It developed later from the direction of the observatory, which is no longer menaced. The only danger is for the new electric tramway up the volcano, which, however, had thus far not been touched. The eruption already seems to be decreased, and it is hoped that no damage will result from it.

The spectators far enough way not to be frightened stood entranced at the spectacle, but those nearer to the volcano were seized by panic when the eruption began and rushed down from the sides of the mountain and from the adjacent country to the villages of Portici and Resina, which are built over the ruins of Herculaneum. The alarm in these villages was somewhat quieted by the mayor after fixing notices declaring that there was no danger and exhorting the people to remain calm.

TWO CLOUDBURSTS.

Property to the Amount of \$500,000 Destroyed in Council Bluffs.

Council Bluffs, Ia., Aug. 27.—Two cloudbursts Wednesday night destroyed \$500,000 worth of property in Council Bluffs. The storm turned the streets into rivers, and hundreds of families escaped with difficulty. Many business houses were flooded, and the damage to stock will amount into the thousands.

The rainfall here for the 24 hours ending at midnight amounts to six inches. Trains on the Northwestern, The Rock Island and the Milwaukee railroads are tied up by wash-outs.

Reports from 25 Northwestern Iowa points show the fall of rain has been so heavy that crops have suffered considerably.

IN A RUNAWAY ACCIDENT.

Woman Killed and Her Companion Driven Insane.

Pawtucket, R. I., Aug. 27.—Jennie Montague, a telephone operator, is dead, and her companion, John F. Bannon, is said to be insane as a result of a runaway accident. For half a mile the pair clung to their seat in the carriage. Then the girl jumped and a hundred yards further Bannon followed her example. Miss Montague died an hour later. Bannon escaped with painful body bruises, but as soon as he learned of his companion's condition he became mad with grief.

HALF A MILLION DOLLAR FIRE.

Freight Depot of the C., R. I. & P. Railway, Chicago, Damaged.

Chicago, Aug. 27.—Fire Wednesday night in the freight depot of the Chicago, Rock Island & Pacific railroad at Polk and Sherman streets did \$500,000 damage, mostly to outgoing freight. The flames had secured a start when discovered, and by the time the first engines arrived the building, which is 250 feet long and two stories high, was a mass of flames. The firemen at first had little hope of saving the structure or any of its contents.

Laredo, Tex., Aug. 27.—A letter was received in this city from a responsible resident of Linares, Mex., in which he states that yellow fever exists at that place and that the death rate is now 14 a day.

EASTERN TROUBLE

Porte is Preparing to Answer the Recent Bulgarian Memorandum to the Powers.

BULGARIA IS HELD RESPONSIBLE.

Gen. Lew. Wallace Says Our Government Should Not Interfere in the Turkish Situation.

If the Turks Are Committing Atrocities in Macedonia the European Powers Should Act and Not the United States.

Vienna, Aug. 27.—It is stated that the porte is preparing an answer to the recent Bulgarian memorandum to the powers by note declaring Bulgaria to be directly responsible for the rising in the village of Adrianople and declining to be answerable for the consequences.

There is a report that the porte has ordered the authorities in Macedonia to protect the Greeks, and that it has also authorized the commanders to call for the co-operation of the Greek villagers against the insurgent leaders. There is also talk of the possibility of a Turko-Greek alliance.

A dispatch from Uskub reports that the Austrian consul has demanded the punishment of the colonel of an Albanian regiment, the men of which fired their rifles inside the town, thus endangering the life of an Austrian subject.

Crawfordsville, Ind., Aug. 27.—Gen. Lew Wallace Wednesday night, when asked for a statement regarding the Macedonians and whether the United States should take any action in stopping the outbreak and massacres that are shocking the civilized world, said:

"There is nothing in the Turkish situation with which the American government has to do. If there are atrocities being perpetrated by the Turks, it is for the European powers to act, not us, and this will continue while the old Berlin treaty endures. In the next place, who is in the right? As I understand it, the sultan is simply defending the integrity of his empire, and he is a poor Christian who would deny him that much. It is not out of memory that we had a rebellion in our country. It is also to be remembered that we put it down, no foreign power interfering."

WILL DISCARD KRAIG RIFLES.

The Improved Springfield Rifles Will Take Their Place.

Chattanooga, Tenn., Aug. 27.—The announcement is made here Wednesday by a member of the special board appointed by the ordnance department to make rifle tests at Buffalo that the United States government will in a few days issue formal announcement of the adoption of the improved Springfield rifle and the discarding of the Kraig. The decision was reached after a long series of tests by the board and the report was accepted and approved by the ordnance department. It is necessary that the action be approved by the general staff, and it is said that the announcement will be made in a few days. The weapon adopted will be seven pounds in weight, while the Kraig now in use weighs nine. The Kraigs will be distributed among the militia of the various states.

THE ZIONIST CONGRESS.

The Russian delegates opposed the project and left the hall as a protest.

Hanged Himself in a Cell.

Cincinnati, Aug. 27.—Suffering from an intense feeling of disgrace over his arrest in a resort and feeling that he could not face his relatives and friends after such an experience, Andrew Herbst, a printer, whose home is in Louisville, hanged himself in his cell at the Central police station Wednesday, and was cut down just in time to save his life.

Long Strike Settled.

THE POWERS TRIAL.

State's Attorney Scores Taylor—Defense Claims Youtsey Guilty One.

Georgetown, Ky., Aug. 27.—John K. Hendrick, attorney for the state during the progress of the Powers trial, Wednesday scored Gov. Taylor for hiding in Indiana and sending his depositions into court here.

Attorney Hendrick took the position early in his argument that Youtsey and Howard were but weak tools in the hands of Taylor, Powers and Finley.

The defendant, Powers, will Thursday occupy considerable of the day and evening. Powers' speech will be concluded Friday morning. The line of argument of the defense counsel is that the convict Henry Youtsey of his own volition did the killing, and that their client had no connection with it whatever.

State's Attorney Franklin will conclude in the afternoon.

TWO WOMEN ON TRIAL.

They Are Charged With Scalding An Aged Man to Death.

Mayking, Ky., Aug. 27.—The Walter Thomas murder trial in the Letcher circuit court was Wednesday continued until the next term, and Mrs. Nancy Garret and Pattle Garret, her 16-year-old daughter, of Craftsville, went on trial for the murder of "Uncle Jason" Craft, aged 60, at Craftsville, in February, 1903.

It is alleged they killed him by scalding him. The victim, were returning from a business trip to Virginia, stopped over night at the Garret house, a few miles from his home. Some time that night, it is alleged, the women burned him so that he died a few days later.

AROUSING FROM HIS SLEEP.

A Breathitt County Man Shot and Killed the Disturber.

Jackson, Ky., Aug. 27.—"Bill" Slays shot and killed Ed Winman, a Breathitt county farmer, at the former's "blind tiger" in Knott county Sunday night. Winman and a friend went to Slays' "tiger" for whisky. Finding the place closed they tried to unlock the door. Falling in this Winman called to Slays, who was asleep in an adjacent house. Slays responded, it is alleged, by firing the shot taking effect in Winman's breast, killing him instantly.

DRIVEN INSANE BY HEAT.

A Negro Track Layer Attacked a Fellow Laborer.

Louisville, Ky., Aug. 27.—Driven insane by the heat, Ernest McQuade, a Negro track layer employed by the Louisville City railway, struck Waverly Thomas, a fellow laborer, on the head with a pickax. Reuben James, in attempting to get beyond the reach of McQuade, released a crowbar under a rail which in springing upward cut a gash in James' neck. The injuries of Thomas and James are believed to be fatal.

Jackson, Ky., Aug. 27.—As a number of soldiers were finishing their dinners Wednesday in their camp in the courthouse yard, a large maple tree, near the mess hall, was struck by lightning. The soldiers escaped with slight shocks. Sergt. Miller at first was thought to be killed, but after receiving medical attention he was able to walk around the camp.

MISSOURI MINERS.

Southwestern Interstate Coal Operators Association Will Not Accede to the Demands.

WILL FIGHT AGAINST THE UNION.

It is Believed That on Tuesday Every Mine in the State Will Be Shut Down.

The Operators May Make a General Appeal For Arbitration—President Mitchell Is to Be Consulted in the Matter.

Kansas City, Mo., Aug. 27.—The conference of the Southwestern Interstate Coal Operators' association adjourned sine die. There were 56 operators of the three districts in the southwest in the conference, and the first work done was to agree not to accede to the demands of the Missouri miners. The conference voted that the operators should stand together in a defensive alliance and that all should fight for one and one for all as against the miners' union.

Just before the close of the morning session a motion was adopted calling for the appointment of a committee of five to take up the matters at issue with John Mitchell, president of the National Mine Workers' Union of America. The object of the committee is to appear before President Mitchell and request that the difficulties in Missouri be settled by arbitration. It is believed that next Tuesday morning, September 1, every coal mine in the state of Missouri will be shut down by a general strike unless in the meantime President Mitchell or the national board of the union advises the Missouri miners not to strike pending a settlement by arbitration.

The commission will leave for Indianapolis Thursday to lay the matter before President Mitchell. He will be asked to use his good offices in whatsoever way he can. The operators will suggest that two new scale committees be appointed. If they can not arrive at a settlement arbitration is proposed. The committee will urge President Mitchell to advise the Missouri miners not to go on strike Tuesday, but to keep on working until the matter is finally settled.

The operators will agree to pay whatever scale is finally decided upon from September 1. If President Mitchell or the national board can not prevent a strike pending arbitration the operators may then make a general appeal for arbitration.

Judge George Gray, of the United States circuit court, Bishop Spaulding, of the Roman Catholic church, and other distinguished men of affairs may be asked to form the board of arbitration.

THE MCKEESPORT STRIKERS.

The 11 Men Arrested Were Fined For Rioting.

McKeesport, Pa., Aug. 27.—The 11 men arrested for rioting at the Port Vue tin-plate works last Monday night were given a hearing Wednesday before Mayor Falkenstein. Five were fined \$50 and costs each and the others lesser amounts. All of these fines were paid by William Gibson, vice president of the Amalgamated association who has had charge of the strike. Taylor and Finley are not concerned so much about their feelings being hurt as they are lest their worthless carcasses should be made to suffer for their dastardly crime.

Taylor and Finley are not disturbed so much by what names they are called, as they are by the fear that they may sooner or later be called from Indiana to Kentucky.

GENERAL SIMON BOLIVAR BUCKNER will probably take the stump for the Republican State ticket. General Buckner's daughter was the first wife of Colonel Belknap, the Republican candidate for Governor. Simon Bolivar won't get many votes for his son-in-law.

As EXCEPTIONS are taken to speaking of Taylor and Finley as fugitives from justice, and the claim set up that they should be termed "fugitives from persecution," how would it answer to make a compromise and designate the pair hereafter as "fugitives from prosecution?"

In speaking of the postal thefts, and Postmaster General Payne's criminal neglect of the duties of his office, The New York Press, an ultra Republican paper, after arraigning Machen, the central figure in the late postal indictments, and calling for the resignation of the Postmaster General, says:

If there is a man anywhere who is more familiar than is Mr. Payne with the ways and wiles of practical politics, or better fitted than he to smell out and root out a gang of grafters if he had the mind to do it, we cannot call that man to mind. How the Machen syndicate could thrive under Payne, unless Payne had shut his eyes to what was going on about him, never will cease to be a cause for wonder.

This same paper makes the bold declaration that the Postmaster General must get out of the President's Cabinet before Mr. Roosevelt can make his appeal to the country for indorsement of his purpose to give the people a vigorous, impartial, courageous, efficient and, above all, a clean administration.

In this connection it is well to quote the President's former views on the subject of corrupt politicians. Here is what he said before he got mixed up with them:

No man who is corrupt, no man who condones corruption in others can possibly do his duty by the community. We cannot trust those base beings who treat politics only as a game out of which to wring a soiled livelihood. The real and dangerous foe is the corrupt politician.

And yet if there is a more corrupt gang than the postal thieves they haven't been found out, and none of them has yet been convicted.

River News

The smaller packets will have to be called into service soon. The river is getting low.

The Christian Church national convention will be held at Detroit October 16-22. Each church is asked to send a representative, and nearly ten thousand are expected, making it the largest church assembly in the United States.

Mr. Henry C. Stone, of Mt. Gilead, was at Washington Tuesday on his way to visit his relatives, the Wallingfords, at Fern Leaf. He reports all kinds of vegetation parched in his neighborhood. He says that on forty acres of corn he won't get enough to winter a horse and cow, and that his neighbors are all as bad off.

Information in regard to Confederate soldiers graves in Mason, Bracken and Fleming counties is most earnestly solicited. I particularly desire to know their number, places and condition—if marked or unmarked—especially those in private or country burying grounds or on farms. Any intelligence pertaining to such graves will be most gratefully received. Address all communications to Mrs. Thomas J. Chenoweth, Maysville.

Mrs. J. W. Throckmorton, wife of Captain J. W. Throckmorton, a popular conductor on the L. and N. railroad, had a narrow escape from a serious accident at Lexington. Mrs. Throckmorton, with her baby, and accompanied by a lady, was driving a high-spirited horse, when, in some way one of the reins was dropped, and the vehicle was overturned, bulging all the occupants. Mrs. Throckmorton was formerly a Miss Bullock, and has many friends in Maysville.

A CITIZEN DISCUSSES

A Vital Question—Fraught With Interest to Maysville People.

When a citizen right here at home makes a public statement like the following, all room for doubt disappears and the most skeptical must be convinced. It's pretty hard for our readers to prove a statement made by a stranger living in some far-away point of the union, but the endorsement of neighbors, friends and citizens is the best of proof; no better evidence can be had:

Mr. P. Gantley, grocer of 314 East Fourth street, says: "The prompt and thorough relief from backache given by Doan's Kidney Pills is the strongest indorsement possible. When backache is caused by the lack of proper action of the kidneys the only reason for continuing to suffer is the want of knowledge of Doan's Kidney Pills. I procured them at J. Jas. Wood & Son's drug store, West Second and Market streets."

For sale by all dealers. Price 50 cents a box. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States. Remember the name—DOAN'S—and take no substitute.

Linens That Are Linens

Our entire fall stock is in. Before your boys start to school bring them in.

With us they can choose from the productions of the famous manufacturers, Stein, Bloch Co., L. Adler Bros. and Co., Garson Meyer Co., three of the greatest concerns in Rochester, New York. The majority of the "boys" know these makes and want them.

Our trade on these lines has grown to such proportion that the qualities we buy and sell of them enables us to sell them for no more than you would have to pay for much lesser qualities in other houses. You do yourself justice to look over our lines before you buy.
